# ANOTHER GAINS BY HARD WORK

BURLINGTON JUNCTION BOY NOW HEADS BIG CONCERN.

## HE SUCCEEDS IN CUBA

**Walter Schmauder Is Vice-President and General Manager Of Largest Electrical Firm On Island.**

Twenty years ago Walter Schmauder was the night operator and "trouble" clerk at the Burlington Junction telephone office, then under the management of Harry Todd.

Today, Mr. Schmauder is the vice-president and general manager of the largest electrical company in Cuba, an institution that serves eighty-six cities and towns on the island. His annual salary is well up in the five figures.

Mr. Schmauder arrived in Burlington Junction Saturday for a visit at the home of his mother, Mrs. Anna Schmauder, and his sister, Miss Bertha Schmauder. He will leave tonight for New York City and after a week's stay there, will sail for Havana, Cuba, where he has his offices.

Mr. Schmauder was a guest yesterday at the home of Judge and Mrs. Jesse F. Robertson.

Mr. Schmauder was born, reared and educated at Burlington Junction. After being graduated from the high school there, he enrolled in the School of Engineering of the University of Missouri. When he completed his course, he went to Waco, Texas, where he was associated with the Texas Electrical Co. After a few years, he went to Fort Worth and then to Dallas. He was in Texas for fifteen years and during this entire period was associated with the Texas Electrical Co.

But a bigger field of work awaited this Nodaway County boy, and he was called to Cienfuegos, Cuba, and then to Havana where he was placed at the head of the largest electrical company on the island. The headquarters of the organization are in New York City.

Mr. Schmauder's present position, with a salary of several times that paid the governor of Missouri, is merely the result of hard work and following his natural talent. Always interested in electricity, Mr. Schmauder studied it from every angle and was willing to work every hour of the day, if need be, to learn something new of his chosen field.

While a high school boy twenty-five years ago, Mr. Schmauder delighted in "experimenting" at the telephone office or any other place where he could find some batteries and wiring. He has learned the electrical business from the ground up and is simply another example of what hard work and a thorough study of his profession will accomplish.

# IS SAFE AND SANE FOURTH

NO SERIOUS ACCIDENTS ARE REPORTED.

## IS OBSERVED QUIETLY

**Maryville Country Club Is Mecca For Golf Enthusiasts—Number Spend Holiday In Nearby Cities.**

It was a safe and sane Fourth of July in Maryville, not a serious accident of any kind being reported to Maryville physicians.

Year after year this holiday is being observed quietly with less casualties, especially in Maryville and Nodaway County, a local physician said today. In a few cases burned fingers were given home treatment and a call to a physician was not necessary this year.

For the most part, Maryvillians stayed at home Saturday and celebrated the holiday as a day of rest. Long before dawn, patriotic youngsters, having saved their nickels and pennies for weeks, welcomed in the nation's birthday by booming firecrackers or cracking torpedos.

A number of persons spent the day in Omaha, St. Joseph and other nearby towns and cities, but there was a general inclination to remain at home and rest.

The Maryville Country Club was the mecca for golf enthusiasts, a large number being on the links throughout the day. Several families enjoyed picnic dinners on the grounds and the dining room at the clubhouse served ninety persons. A large crowd witnessed the fireworks display southeast of the clubhouse Saturday night. The dance, too, was well patronized.

Fireworks were much in evidence all over the city Saturday night and it was not until nearly midnight when the last firecracker had been shot or the last Roman candle lighted the sky. It was a sane and sane ourth.

No serious accidents were reported from any of the towns in the county.

## To Prison for Using Mails for Defrauding

# WANTS BIGGER SCHOOL DIST.

**CONCEPTION'S DISTRICT 118 DESIRES TO ANNEX DIST. 125.**

## COURT TO QUITMAN

**Consolidated School District 38 Wants Alleys and Streets Vacated at Elmo—To Meet July 15.**

A petition to annex school district No. 118 to the Conception Junction school district No. 125 was filed before the county court today and will come up for hearing on July 15. In the petition it states school district No. 118, known as Bristle Ridge, had less than twenty children of school age; the district lapsed as a corporate body and territory became unorganized by reason it failed to provide an eight-month term for a period of more than one year last past; and that no provision was made for children to attend school or schools.

The Conception Junction school district adjoins district No. 118.

The petition was signed by James C. Donaldson, A. M. Schafer, H. J. Aiden, J. E. Hildebrant, W. S. Vandeventer, Chris Label, L. O. Demus, R. M. McPeek and T. A. Luke.

Another petition presented to the county court which will be considered at the first day of the August term was by the consolidated school district No. 38 against Leonard Yaple, John W. Calfee, Edwin C. McCumber, Adda McCumber and Alma H. Farquhar. The school district is asking the court to vacate alleys and streets which runs through their property at Elmo.

The members of the county court made a trip to Quitman this afternoon to view a culvert near the Bilby's ranch, west of the Nodaway river. The court expects to adjourn this evening and will meet again on July 15.

The bond of the Farmers Trust Co. and the First National Bank, two of the four county repositories, were today approved by the county court in regular monthly session. The bonds are for $60,000 each.

The court granted the Linville Hotel to operate one pool table during the morning session. Repairing of culverts and roads in various parts of the county were brought before the attention of the court but no action was taken.

The routine business of the court was taken up during the day by allowing bills.

T. Stanford and G. W. Raglan of New York, attorneys for Harry F. Sinclair's oil interests, were here preparing to oppose the government's counsel in court.

The government's motion to reopen will be based on its desire to secure and present testimony of Canadian witnesses, including H. S. Osler, head of the Continental Trading Co., who evaded giving testimony when he went to a game hunting expedition to South Africa when the first trial was on.

## Woman Is Seriously Injured in Accident

# COOLIDGE MAY BE CANDIDATE

**PRESIDENT SERIOUSLY CONSIDERS RACE IN 1928**

## MULVANE TALKS UP

**Kansan, Close to Chief Executive, Makes First Direct Prediction—Has Conference Scheduled**

Swampscott, Mass., July 6—Politics, following inevitably in the wake of the President, came to the fore at the summer White House today with the distinct understanding that Mr. Coolidge will again bear the standard of the Republican party in 1928 and that he intends to exert every possible personal effort to keep party lines in tact in the election of 1926.

From David Mulvane, Republican national committeeman from Kansas, came the first direct prediction that President Coolidge would again risk his political future in the next presidential election. From a number of sources over the week-end came the word that the President was taking a personal hand in directing the Senatorial elections of next year.

Mulvane, summering on the north shore, will see the President early this week for the first truly personal engagement of the President during his vacation. The Kansan, admittedly a political power in the Middle West, is is ardently behind Mr. Coolidge for 1928.

Despite the fact that Mulvane was an outstanding member of the opposition to Theodore Roosevelt under exactly similar conditions, he predicted that the third term issue would not be raised against Coolidge.

Insofar as state politics is concerned, Mr. Coolidge is showing a marked interest in the Senatorial elections in Massachusetts, Wisconsin, North Dakota and Iowa. In the Bay state, he openly has taken Senator William M. Butler, chairman of the Republican national committee, under his wing. Facing serious opposition from David I. Walsh in 1926 Butler's chances of election are problematical and Coolidge, realizing that, has lost no time in shoving Butler to the front on every possible occasion.

Already the President has made an invasion of the Northwest in the interest of the Republican organization. His trip to Minneapolis and St. Paul has been regarded generally as an attempt to strengthen the party's cause in a section openly committed to the third party movement.

## Mrs. Coolidge Goes in for First Swim

**But President, Walking Leisurely About Grounds, Shows No Signs Of Following Wife's Example.**

Swampscott, Mass., July 6.—Mrs. Coolidge took her first swim of the season in the sea near the summer White House today.

Undeterred by the cold water of the north shore surf, she went in at noon, accompanied by Mrs. Adolphus Andrews, wife of the President's naval aid.

Secret service men and marine guards shooed photographers to a great distance.

The President, walking leisurely about White Court grounds, showed no signs of following her example.

## Petitions May Hold Up Compensation Measure

## Reward Offered for Dead Bank Bandits

**Chicago Association Will Pay $2,500 for Every Robber Shot Why Plying Trade, Announced Today.**

Chicago, July 6.—Heretofore it has been profitable for bank bandits to kill policemen; now the bankers of Chicago and Cook County have made it profitable for policemen in the future to kill the bank bandits.

For every bank bandit killed while plying his trade, the Chicago and Cook County Bankers Association will pay a reward of $2,500.

In the statement announcing the reward, attention is called to the desperate situation confronting bankers and the public in general.

"This reward will let the police force understand that the entire banking fraternity is behind them in shooting to kill the bandit who enters a bank for the purpose of holding it up," William J. Rathje, president of the Mideity Trust and Savings Bank, said today.

# STILL INSISTS ON AGREEMENT

**U. S. WOULD HOLD CONFERENCE ON CHINESE PROBLEMS.**

## BUT NO PROTESTS YET

**However, It Is Understood Great Britain and Japan Oppose Parley Called By Kellogg.**

Washington, July 6.—The desire of the United States to bring the powers into a conference for the adjustment of China's troubles with foreign nations has not been dampened or changed by the opposition of Great Britain or Japan, it was declared officially here today.

Secretary Kellogg is absent from Washington but it was learned that nothing official has reached the state department indicating that the British or Japanese Governments would not take part in a conference on extra-territoriality in China.

London, July 6—Japan and America, at swords points as a result of the request by the United States for a conference to consider abolition of extra-territorial rights in China, was the menacing vista brought up today by the conservative newspaper, the Daily Telegraph.

"By making this demand at this hazardous moment, the United States will assuredly be regarded by Japan as having at last thrown down the gloves," the Telegraph said. The newspaper held that Japan's interests would suffer most if the United States insisted on immediate modification of extra-territorial rights in China.

# BOSTON BLAST TOLL NOW 43

**FIFTEEN TO TWENTY-FIVE MORE BELIEVED DEAD.**

## JURY INTO ACTION

**Will Investigate Cause of Picwick Club Disaster Early Saturday Morning —Structure Crowded.**

Boston, Mass., July 6.—Forty-three bodies had been taken from the wreckage of the Pickwick Club building today, fifty-three hours after the structure collapsed. Fear was expressed by searchers that from fifteen to twenti-five bodies still are buried in the tangled mass of wreckage.

As the salvagers, many of them without sleep, worked with might and main in playing their part in the great drama, witnesses were gathered at the Suffolk County courthouse to appear before a special session of the grand jury. The grand jury was called together today by Thomas C. O'Brien, district attorney, who declared that he was convinced the flimsy building was unsafe for occupancy.

The Pickwick Club building collapsed early Saturday morning while crowded with holiday merrymakers.

"Over-crowding" in the building, weakened by a fire ten weeks ago and flanked by a lot in which a building had been removed to make way for new construction, was the only reason assigned by officials. Meanwhile, all other night clubs and resorts of the city have been closed pending inspection of their buildings, and a theater and other buildings bordering on that which collapsed, have been closed.

**The Mecca of All Classes.**

The Pickwick Club had flourished for more than a year. All classes visited it. Bankers and politicians brought parties there from the theaters and earlier closing dance places. Theatrical persons, boxers, sporting men and a wide variety of others dropped in frequently.

The club served light meals and much ginger ale. Patrons brought their own or bought liquor from bootleggers they met there. An orchestra played for dancing and a cabaret program was given from just before midnight to three o'clock. On holidays, the time was extended.

One man was shot and three others were arrested when police found them rifling the cloakroom of the Pickwick Club yesterday. This room was in the corner of the building left standing and was partly shielded by the falling floors.

William Robinson of Malden was shot in the arm by a patrolman. The others submitted to arrest without resistance.

## Style of Furniture White House Problem

**Green Room To Be Refurnished This Summer—Eventually, Entire Mansion To Be Changed.**

Washington, July 6.—A controversy has arisen over what style of furniture—colonial or French—is to be installed in the Green Room of the White House this summer and eventually in the entire mansion.

President Coolidge has been called upon to aid in deciding the question.

The first plan was to install Colonial furniture representing the period during which the White House was built.

Architects headed by E. C. Kemper, executive secretary of the American Institute of Architects, protested in a letter to the president and insisted the French style of furnishings were most suitable.

Congress has appropriated only $50,000 for repair and furnishing work and White House officials anticipate that perhaps some patriotic housewives may want to donate some especially prized pieces of furniture, which would complicate matters still further, in so far as a general style is concerned.

At present there is something of a conglomeration of styles, the result of various tastes of the presidents who have occupied the White House.

Artisans already have begun work, which includes repairing the roof, the elevator, painting the offices and renovating the kitchen.

After this is done there will remain sufficient funds to refurnish one room and the Green Room which has suffered most from presidential wear and tear has been selected.

**On That Long Drive**

You made a long drive on the Fourth, no doubt. All along the road you witnessed tire trouble. The day was hot, and the road bed was blistering.

Through the rubber sheetings between the cord plies, Dunlop chemists and engineers have greatly lessened friction or wear in the tire. Lessening of friction means lessening of heat. Driving out heat means coolness. Coolness in a tire is long life or more miles for you. The collective experience of 37 years of successful tire-building goes into each Dunlop product. That's why Dunlops give you that last mile and why it can be truthfully said that when a "Dunlop is done, a friend is won."

## Anthrax Germs Are Carried by Buzzards?

## Supply State Course of Study Is Limited

**County Superintendent Somerville Wishes All Teachers Would Preserve Their Copies.**

The supply of state course of study, is nearly exhausted, according to a letter received by Leslie G. Somerville, county superintendent of schools, from Chas. A. Lee, state superintendent.

Due to this fact, Mr. Somerville is anxious that each Nodaway County teacher, or person who will teach, preserve his copy of the state course of study. The letter to Mr. Somerville is as follows:

Dear County Superintendent:

"Our supply of Elementary Courses is nearly exhausted and no funds are available for printing any more for the next two years. Therefore, we shall not be able to send any more copies to county superintendents who have received a supply within the last three months and shall only be able to allow twenty copies to those who have not received these courses within the last three months. Other supplies are likewise affected.

"While I have written a large number of the secretaries of consolidated school boards their districts may receive aid under the Wilson High School Aid Law provided their districts pay a levy of one hundred cents, yet I fear some districts will fail to receive aid because I do not know all who pay this levy. Of course it will only be necessary to apply under this law if the district cannot receive aid under Section 11264 as revised by the last General Assembly. Necessarily I want the state to help every one of these districts which is making such an effort to support good schools. While the limit for applying expires today I am sure the county clerks will accept applications if presented within the next few days.

"Sincerely yours,
"CHAS A. LEE,
"State Superintendent."

## Farm Publications Play Important Part in Advertising Communities

The following is the twenty-eighth installment of the article on "Community Advertising," written for the Democrat-Forum by D. A. Caldwell, secretary of the Chamber of Commerce.

Community prospects must be classified according to their benefits to the community. It is always important to test ones objectives before placing advertisements in any mediums. Something must be known about the results to be obtained; and something must be known about the character of the subscribers to the publications that are desirable to use.

Activities of a community of interest to technical journals, if properly written up and supplied, can usually be printed in many publications. Briefly told, items about community activities that apply to selected publications are always worth the effort. In the future community advertising programs are going to be built with more understanding of technical mediums when a problem presents itself involving a business objectives.

The promotion of community business is a business problem and must be treated as such.

Farm publications play an important part in community advertising that seeks to develop town and country relationships and to secure settlers for agricultural districts. They are read by the entire family. They guide rural American thought. The farmer knows the advertising columns are guarded for his profection. He reads and believes. This type of publication, therefore, carries prestige and good will, with the group that has the largest buying power in the world.

To sell anything to farmers it is necessary to approach them intelligently and with knowledge of conditions. It is useless to use the same approaches in different sections of the country.

In the future there is going to be considerable community advertising in farm publications. When the land settlement question becomes more serious and when there is greater competition between sections, we are going to see the need for special community advertising in farm publication to keep farmers at home.

## Blanche Sweet Here in New Film Today

Blanche Sweet never requires the services of a double in scenes where she is called upon to execute difficult solo dances.

In "His Supreme Moment," the George Fitzmaurice production in which she is featured with Ronald Colman, Miss Sweet plays the role of a Broadway actress and dancer. Two of her dance numbers, an Oriental fantasy and a wild Spanish fandange, are presented on the screen in natural color by the improved Technicolor Process, by which a portion of this Goldwyn-Fitzmaurice picture was photographed.

In addition to Blanche Sweet and Ronald Colman, the cast of "His Supreme Moment" includes Jane Winton, Belle Bennett, Cyril Chadwick, Ned Sparks and Nick de Ruiz. The story is an adaptation of May Edginton's new novel, and will be First National's screen offering at the Empire Theater tonight and tomorrow.

### Chicago Closing Grain Review.

Chicago, July 6.—Wheat and oats made substantial gains in trading on the Chicago Board of Trade today.

Corn sagged.

Principal buying in wheat developed shortly before the close. Previous to that time the market was very quiet and moved within a comparatively small range.

Corn was under pressure because of the continued growing weather. Farmers were reported selling old supplies because of the better outlook for growing crops.

Oats on the other hand, need cooler weather. Belief among traders is that prevailing temperatures are too hot.

Provisions were fairly active and higher.

### CLEARMONT.

What a splendid growing morning! Sunshine and rain and everything to make glad hearts and if we get out with our tools we'll have a bountiful harvest. Fruit isn't as plentiful as we might wish but there is some yet to mature; we've had our cherries and aren't we expecting tomatoes, corn beets, beans, etc., to can?

We believe almost everyone is quite well, with a few exceptions. Mr. Walker, one of our aged townsmen has been sick for several weeks and shows very little, if any, improvement. These hot days are most trying to sick people.

Grandma Gregory had the misfortune to fall from a small box, on which she was standing and broke her arm very close to the shoulder. Dr. Wiley was called and advised her to be taken to Maryville for X-ray examination which proved the shoulder not injured. We are all glad for a plain break is bad enough without any joint injuries. Don't go about your hoeing, Grandma we'll all have garden fruit to spare

The rag man was just at the door. We're washing ours and making them over.

Mr. and Mrs. Harman, their daughter, Mrs. Brubaker and children and Elaine spent Wednesday at the home of Editor Skeed and wife. We assure you the dinner and entertainment were the very best.

Rev. and Mrs. Harman enjoyed a splendid supper and evening in the home of Mr. and Mrs. Russel Holmes. Mr. and Mrs. John Whitten and Mr. and Mrs. Eph Johnson also spent the evening with them. The evening was spent in visiting and plans were made to repair and clean Prairie Temple church, when the work is completed a social will be held at the church at which time a Sunday school will be organized and other plans made to further the church work in the community. Every one invited to come.

The summer is going, school time will soon be here. Time doesn't even wait for the molliers to get one necessary turn finished until something else is to be done. But it all goes into a lifetime.

Mrs. L. F. Harman returned from Chillicothe last Saturday night where she has been visiting her son and wife, and giving some grandmotherly care to little Eugenia Ruth, the new grand-daughter which recently arrived.

The home of Mr. and Mrs. Giles Smith has been made glad by the birth of a baby girl. Mother and baby reported as fine.

No Fourth of July celebration in Clearmont. Some are planning to go to Burlington Junction.

Mrs. C. R. Wills and children of Alliance, Nebr., arrived in Clearmont this morning. They are visiting in the home of Mrs. Will's parents, Mr. and Mrs. L. F. Harman.

## Pickering

O. G. Null.

Mrs. Margaret Lutz left Thursday morning for Centerville, Kan., where she will visit her son Mr. Ed Proctor.

She may go to Oklahoma to visit a sister before returning home.

Hanna and Lincoln have put in a concrete approach to their gasoline pump in front of their place of business which will be quite a convenience to their patrons.

The weather this week has been fine for harvesting, haying and corn plowing and in consequence a large portion of the wheat is harvested. Much of the corn has received its last plowing; oat harvest has begun and the second crop of alfalfa has been cut.

Crop prospects are above the average and with favorable weather we may expect a bumper crop.

## It Takes a Good and Fast Line to Make Real Sheik

Kansas City, Mo., July 6. (United Press)—Talk, not looks or clothes, makes the 100 per cent sheik.

"Feed 'em a fast line of talk and shoot it faster than they do" is the advice to sheik-inclined youths by Joseph Phillips, St. Louis.

Phillips is in jail here charged with stealing an automobile. He is also alleged to have two wives—Miss Ernestine Bean, 19, and Miss Genophia Whittingill, 18, both of Kansas City.

"Hell, I ain't no sheik. I ain't got no looks or no clothes" Phillips remarked.

"But I've got a fast line—that's all there is to this sheiking business."

# DROP TWO CLOSE GAMES

MERCHANTS' TEAM PLAYS BEFORE SMALL CROWDS.

## BATTERIES DO WELL

**Lose to Whitesville 1 to 0 and Drop Game Yesterday to Shenandoah 5 to 0.**

Two creditable games, even though both were lost, and two meager crowds, so small that expenses were not made. That is the result of the two games that the Maryville Merchants' Club played Saturday and Sunday.

On the Fourth the Merchants' team lost a 1 to 0 game to Whitesville. Whitesville did not score until the sixth inning. Yesterday the Merchants' Club lost to Shenandoah in a return game by score of 5 to 0. The visitors did not score until the seventh inning.

On Saturday the battery of Dixon and Laughlin, and yesterday Dixon and Tobin and Laughlin, all performed well and they are not responsible for the two games lost.

Maryville out-hit Whitesville but could not seem to score. In the sixth inning the locals got two hits, placing a man on first and third. On a sacrifice hit Tilson was thrown out at home and the next two men fanned. Loose playjng in the same inning gave Whitesville its one and only score and that was the only time during the entire game either side weakened. It looked in the ninth frame as if Whitesville might score when Hatcher got a two-bagger, and Dixon walked the next two but admirable support retired the side. Whitesville brought over a good battery, comprised of Wampler and Harvey.

Against Shenandoah the Merchants gave promise of getting in some runs in the fourth inning but Redenbaugh got himself out of a bad hole. On a squeeze play Tilson again ran into tough luck and the shortstop threw him out at the rubber.

In the seventh the bobble came when Maryville had a chance for a double play, but an over-anxious second baseman dubbed the perfect throw from pitcher to second base and both men were safe. Shenandoah then took advantage of this weakness, touched Buhler for three hits and scored four men.

All-in-all, it was two days of interesting baseball and some of the old-time fans who were down to the ball park got the germ under their hide and became enthusiastic. However, many more fans are needed to bring the Merchants' team out of the hole.
